DETAILED ACTION

This office action is in response to the amendment filed on 02/28/2005.

The Inventor's declaration filed on 2/28/2005 to disqualify commonly owned U.S. Patent No. 6,622,200 as prior art (under 37 C.F.R. § 1.132) has been noted by the Office and kept on record.

Claims 31-60 are pending for examination, claims 49 and 59 have been amended.

Allowable Subject Matter

Claims 31-60 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 31, 39, 41, 49, 51 and 59 are allowable because the prior art on record or that encountered in searching for the invention, fails to disclose or suggest the features of instant invention – In response to an instruction received for updating a first fragment of a file, creating a second fragment based on the first segment and the changed data, that can be referred by a handler of a second table copied from a first table and delete the first fragment when the creating and copying operations are completed with

accessing to the deleted first fragment by using the second fragment via the second table – in a combination as claimed by applicant.

Claims 32-38, 40, 42-48, 50, 52-58 and 60, respectively depend on claims 31, 39, 41, 49, 51 and 59 therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
